

# YOU'RE INVITED

INVITATION ONLY:  
RSVP essential | [info@imagineer.me](mailto:info@imagineer.me)

The Science Technology Education  
Research Network (STERN) Forum

Hosted at CISCO Systems  
177 Pacific Hwy  
NORTH SYDNEY

9.00am - 4.30pm  
Tuesday, 17th October, 2017

**STERN**  
SCIENCE TECHNOLOGY EDUCATION RESEARCH NETWORK

**STERN** in collaboration with the Department of Education, CISCO, and leading thinkers in science, education, emerging and visual technologies invite you to join us to explore and *imagine the possibilities* for the future of **STEM** education.

Opening address by NSW Chief Scientist Professor Mary O'Kane

## OUR VISION

To facilitate Principals,  
Teachers, government,  
industry and leading  
mavericks come together to  
collaborate, network and  
continue to build a future  
for STEM education that  
champions imaginative  
solutions that work.

## WORKSHOPS AND BREAKTHROUGHS INCLUDE:

Best Practice for **Rural & Remote STEAM** solutions  
with focus on both the challenges and opportunities.

Dynamic learning models including coding, VR, and  
nuclear science, computer science and robotics.

Imagination education - pedagogy and application.

Opportunities for girls/women in STEM & IoT

The Innovation Hub - While the day is entirely  
collaborative the opportunity to continue innovating  
into the future will be maintained via The Innovation  
Hub.

Office of the  
Chief Scientist  
& Engineer
